

Keenan Ward

Full Stack Software Engineer - Salt Lake City, UT

(435) 655-5021 – pcward.k@gmail.com - <https://www.linkedin.com/in/keenankward/> - <https://github.com/KWard94>

As a Full Stack developer, I thrive while breaking down a problem into achievable steps, and will push for excellence in each step of my code to develop a product that is accessible and practical for as many users as possible.

SKILLS

JavaScript, React.js, Python, HTML, CSS, MongoDB, Mongoose, Express, SQL, PostgresDB, Django, Git, Node.js

PROJECTS

The Public Informant (NYSE Data) / <https://github.com/KWard94/Stock-Data-Display-App>

- This is a web based app which pulls data from the IEX Cloud API to provide information about publicly traded companies on the New York Stock Exchange.
- There are displays of a selection of company data, with links to a more detailed view of advanced data. This app also contains a fully functional search form in order to find any company that is traded on the New York Stock Exchange. All data is updated in real time.
- Programmed in JavaScript via React.js, CSS, and HTML.

Trivia Game application / <https://github.com/KWard94/Trivia-Game>

- This is a web-based trivia game that a user can answer multiple choice questions which populate on screen one question at a time.
- Complete with a scoreboard that tracks increasing and decreasing score on a submitted answer, and an instructions pop-up modal when starting the game.
- Programmed in JavaScript, HTML, and CSS.

EDUCATION

General Assembly | Software Engineering Certification | 2021

- Software Engineering Immersive 12-week program (450+ Hours), focused on Full Stack Development

University Of Utah | Bachelor of Science | 2019

- Major: Parks, Recreation and Tourism, Emphasis: Hospitality Management and Sustainable Tourism

EXPERIENCE

Restaurant General Manager | The Silver Star Cafe | Park City, UT | 2016-2020

- Operated a successful resort town restaurant which hosted a high volume lunch and brunch service in addition to a fine dining dinner service, resulting in complete guest satisfaction, all employees feeling supported, and positive business growth each year.
- Trained a staff of 35 employees and incoming managers, resulting in successful business operations
- Processed all payroll and assessed costs for the business, resulting in accurate audits and financial analysis, leading to proper cost management and overall profitability.
